**Action taken report on
Feedback Analysis on Curriculum Design and Development 2020-21**

Feedbacks received from students and various stakeholders for the academic year 2020-2021 were scrutinized and analyzed in the meetings of departments and IQAC. Following remedies and actions were suggested.

In the student's feedback, most of the students expressed their happiness about curriculum and its usefulness. However, students express their grievance about ways of illustration and inclusion of new knowledge in the content.

All concerned are instructed accordingly to illustrate the content in greater detail and see it happen that the students are getting new knowledge, which they can use in day-to-day practice. All departments are asked to formulate and start job and skill oriented short term courses.

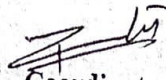

In their feedback, teacher's express their happiness about curriculum and its flexibility. They came across difficulties like reference material, skill base of the content and employability of the syllabus.

Teachers were instructed to collect and create sufficient references for the content to be taught. They were further instructed to start short term courses which would include skill based content and enhance employability.

Alumni of the college gave their feedback on syllabi. They express their satisfaction about expectation of syllabi and its enriched content. Alumni grieved about objectives and skill base of the content. They also worried about employability and updating of the content.

Faculty members were asked to interact with alumni and collect their aspirations and suggestions about curriculum to be taught. Alumni were requested to extend a helping hand for updating the syllabi and make it more employable.
